2. Comment. Thorn (Torun) (Q 54/J 39) is located in Poland, and ~~Kluszewo-Pomorz~~ (Kluszew near Stargard) (O 54/Q 84) and ~~Wegliniec~~ (Kohlfurt near Goerlitz) (O 52/B 22) are located in the Polish-occupied Germany. Gurnienice is the name for two locations in Poland, one is southeast of Kielce (R 51/U 73) and has the coordinates (R 51/U 81) and the other is north of Kobylin (P 52/C 58) and has the coordinates (P 52/C 59).

25X1

3. Comment. This is presumably the first complete list regarding deliveries on Soviet orders, as it covers also the innerzonal shipments to Soviet military fuel depots in addition to export and reparation deliveries. Outgoing shipments in September amounted to 582 tank cars loaded with about 14,000 metric tons. The monthly average production quota for this plant in 1952 was about 25,000 metric tons. It is assumed that innerzonal fuel shipments for civilian and economic requirements and export shipments not made on Soviet order were not covered . No information has been received indicating that the plant failed to fulfill its Five-Year Plan quota.
